

# THE "BORED BETWEEN GAMES" ACTIVITY SHEET

## BY GOOSE & CHRIS OF THE RAINY RIVER BEES

### WORD SEARCH

Here's the problem: There's less than a minute left in the game, and the Rainy River Bees are losing by 2 goals. Help us figure out a way to win. The Sabik say if you find all these words in the puzzle, all of the letters circled twice will spell out an answer!

### ANSWER:

#### DO YOU KNOW?

On Earth, what were the first hockey pucks made out of?

ANSWER: WOOD

### LOGO DESIGN

We think some of these aliens are color-blind. Can you help us come up with some new color ideas for their logos? And do you have an idea for a new logo?

BYTHRIN

RANAKANA

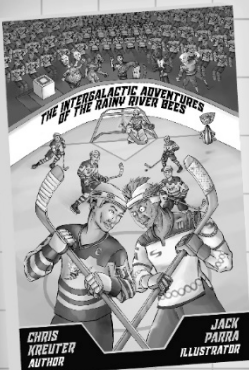

THEEMIM

MIAPLACIDUS

FORNAX

APHORIANS

SABIK

# ROSTER PUZZLE

Dom is sick and can't play in our first game back on Earth. Now we can't agree on what the new lines should be. Can you help us choose two lines that will lead us to victory? You'll need the tips below to choose three forwards and two defensemen for each line.

	FORWARD			DEFENSE		ROSTER
LINE ONE						<b>4 - COLIN</b> <b>9 - DEREK</b> <b>10 - DANNY [A]</b> <b>13 - CHRIS [A]</b> <b>14 - ANDY</b> <b>20 - JAMES</b>
LINE TWO						<del><b>22 - BBM</b></del> SICK <b>27 - JAKE</b> <b>40 - GOOSE</b> <b>44 - JARED</b> <b>88 - WES</b> <b>91 - TIM [C]</b>

1. James & Wes are brothers, so they read each others' mind when they play on the same line.
2. The two assistant captains (A) are on different lines.
3. The players with '4' in their jersey number all hate defense, so they can't all play on the same line.
4. After the Intergalactic Hockey Championships, Colin wants to move back to forward.
5. Derek, Jake, and Chris are all defensemen.

6. One pair of defensemen have numbers that add up to over 100, just like their awesome shot blocking totals!
7. Players with 9 in their jersey play really well when they are both on the first line.
8. Tim and Danny are best friends, and are impossible to seperate.
9. One forward line has jersey numbers that add up to 78.
10. Goose is the goalie, and doesn't go on a line.

## RANAKANA MAZE

Greenana of the Ranakana is trying to score a goal on Goose! Help Goose track the puck by finding how it's going to travel to the net.

Answer: Line 1 - F=10,91,4 / D=9,27 Line 2 - F=20,14,44 / D=88,13
